# Cafissimo Compact

Black  (Standard)

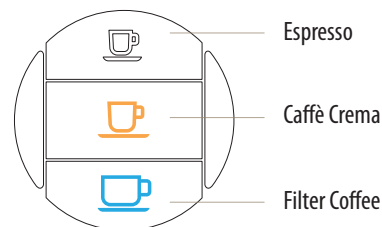

Other colours available (subject to availability, 3 week delivery)

Red  White 

The Cafissimo offers you ultimate Tchibo coffee quality in combination with an easy to use capsule machine. You can now enjoy your coffee whenever and however you like - perfect espresso, caffè crema and filter coffee. Just press a button and your Cafissimo compact will do the rest.

- Unique three pressure level system. Intelligent interaction between machine and capsule means every coffee is automatically perfect, because each type of coffee is prepared at the correct pressure.
- Automatic capsule ejection and integration used capsule container. When you lift up the lever after brewing, the capsule drops into the container automatically.
- Individually programmable beverage size. Brew however strong a cup you like according to your personal taste.
- Save energy with a standby mode and descaling reminder

The three coffee select buttons each represent a different brewing pressure. The colour of the cups matches the colour of the capsules. You can tell by just the colour of the capsule which button to press for the preparation.

## Cafissimo Capsules

In each and every Cafissimo aroma capsule you find the unique Tchibo Arabica quality. Sealed airtight, they preserve their full aroma until they are brewed. This means you can enjoy perfect coffee, cup after cup.

All our capsules are either Rainforest Alliance or UTZ certified.

Espresso Strong

Espresso Decaffeinated
